Visit Yala National Park for Wild Life

YALA NATIONAL PARK – one of the Sri Lanka's premier eco-tourism destinations, lies 24km Northeast of Tissamaharama and 290km from Colombo on the Southeast coast of Sri Lanka, spanning a vast 97,878 hectares over the Southern and Uva Provinces.

The vegetation in the park comprises predominantly of semi-arid thorny scrub, interspersed with pockets of fairly dense secondary forest. Small patches of mangrove vegetation also occur along the coastal lagoons. The park is renowned for the variety of its Wild Life (most notably its many elephants) and it's fine coastline (with associated coral reefs). It also boasts a large number of important cultural ruins, bearing testimony to earlier civilizations and indicating that much of the area used to be populated and well developed.

After lunch Transferred to Hikkaduwa.
